The Honorable Bill Huizenga  
United States House of Representatives  
2232 Rayburn House Office Building  
Washington, D.C. 20515

Dear Senators Collins and Smith and Representatives Tonko and Huizenga:

The Mental Health Liaison Group (MHLG)— a coalition of national organizations representing consumers, family members, mental health and addiction providers, advocates and other stakeholders committed to strengthening Americans’ access to mental health and addiction care— is writing to express our strong support for the Medicare Mental Health Inpatient Equity Act. This critical legislation eliminates the discrimination against mental illnesses that continues to exist in the Medicare program as Medicare beneficiaries are limited to 190days of inpatient psychiatric hospital care during their lifetime. This lifetime limit does not apply to psychiatric units in general hospitals and there is no such lifetime limit for any other Medicare specialty inpatient hospital service.

Through passage of landmark legislation, the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008, Congress put coverage for mental health and substance use disorders on par with other medical disorders. Also, that year, Congress enacted legislation to equalize the Medicare outpatient coinsurance for mental and physical health. Despite this progress, discrimination against Medicare patients with mental health disorders who require ongoing psychiatric treatment and hospitalizations, when in crisis, continues to exist.

The Medicare Payment Advisory Commission reported that most Medicare beneficiaries treated in inpatient psychiatric facilities qualify for Medicare because of disability, hence they tend to be younger and poorer than the typical Medicare beneficiary. These Medicare beneficiaries live with serious mental illnesses (such as schizophrenia and bipolar disorder) and who are living with these disorders from a relatively young age. These illnesses are chronic and will require ongoing treatment and care over their lifetimes, including hospitalization when in crisis.

The elimination of the 190-day limit will equalize Medicare mental health coverage with private health insurance coverage, increase access for the most seriously ill, improve continuity of care and create a more cost-effective Medicare program.

The MHLG applauds your bipartisan leadership and looks forward to working with you and your staff to enact this important legislation.

Sincerely,

2020 Mom
